

# Wabash Capstone Project Notes 05

By: John Danison

# What Have I Done This Week

- Researched Potential Sensor Options
- Selected Sensors, Microcontroller, & Storage
- Started Drafting Data Acquisition Solutions
  - Duration (Burst or Constant)
  - How Data Is Stored & How Often

# Did I Do What I Say I Would Do?

As usual, I feel that I met my promises this past week.

There is nothing outstanding where I am holding my group back from making progress.

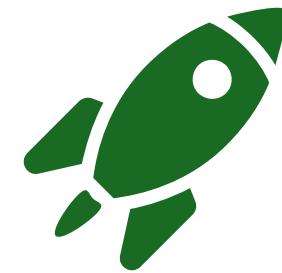

I have attended every class so far. I continue to lead the EE & DAQ of this project.

# Plans For Upcoming Week

## Continue To:

Refine Data Acquisition Strategy | Specifically  
How Data Will Be Formatted  
  
Communicate with Team Members

## By EOW:

Have Sensors Picked & Documentation For  
Reasons Complete
